## Look for the workshop symbol

The college offers a wide variety of workshops each year to help meet the diverse professional development needs of people working in early learning and child care settings. It is our belief that people at different stages of their career look for different types of professional development opportunities and are interested in different types of conversations about their work. Look for these symbols on our workshop schedules to help you decide if a workshop fits your stage of development.

 **Budding:** Just starting your career in early childhood education? These workshops are designed to meet your early needs and to prepare you for the challenges that lie ahead.

 **Advancing:** Growing in your career? Past the basics? These workshops provide advanced training for maturing early childhood educators, which will reinvigorate you and motivate you to climb a little higher.

 **Master:** These workshops are designed to challenge seasoned early childhood educators who have a rich background in ELCC. You'll dig deeper and find new and innovative information for your maturation and skill level.

 **Something here for everyone.**

Of course, these symbols are just a guideline. We hope they are helpful to you as you make your choices. We look forward to your suggestions and feedback about our workshops to help us fine tune programming for the next term. Please call 423-7114 Ext.227.
